

BOY'S WINTER HAT

Materials:

- pattern piece
- fabric — soft melton cloth or double-faced fleece, no less than 15" x 22"
- cord in matching colour to tie top of hat, 18" long
- matching thread

Instructions:

Make pattern by drawing a rectangle on paper according to size wanted.

Small	9.5" x 15"
Medium	10" x 15"
Large	10.5" x 15"

Make a line 2" from side A and another line 2.5" from side C.

Fold fabric in half the long way and place side B of pattern on the fold and cut around pattern.

Put the two 15" sides with right sides together and stitch a 3/8" seam.

Press seam open. This is centre back.

Turn side C up 2.5" into the inside of hat. Press. Sew with a zigzag or stretch stitch 1/4" from the edge.

Attach cord to back seam at top of hat (side A) 2" from the top edge.

Gather 2" from top and wrap cord twice and tie securely.

Knot ends of cord at desired length and cut off excess cord.

Variation:

You may cut fringes on the top of the hat, 1/4" apart to give a pompom effect.
